

Introducing World's First Classroom "SUPER HERO" Globus - MagicStudio

Engage & Empower Learning Experience with this Unique,
Compact, All-in-one integrated Classroom Solution

MagicStudio

An integrated/All-in-one Projector,
Computer, Amplifier, powered
with 30W speakers with
optional interactive feature.

Advantages / USP's of MagicStudio:

- Just one single Power Cable, hence minimal setup time.
- Highly Portable and User friendly-No wastage of time in switching on many devices before starting an Interactive Classroom.
- Makes any wall interactive, so the presenter is not restricted to the size of an interactive board(optional) & the image intelligently adjusts to the colour of the wall.
- Can be safely kept in a drawer with lock and key.
- Teacher gets the maximum time to interact with the students.
- Enhances Group Learning and maximum response from students.
- Makes each & every topic interesting & captivating.
- Minimal Power Consumption, hence save on heavy electricity bills.

Common Features
