Camera Overview

Powerful & professional Bullet, Dome, Fish Eye and PTZ Cameras best suited for indoor and outdoor recordings. They are ideal for rooms, lobbies, receptions, roads, corridors, gate entrances and exits, perimeters etc.

Resolution and Lens

Our CCTV Cameras are available in different resolution starting from 2MP, 4MP, 8MP upto 12MP (Fish Eye). Our Cameras are available in both Fixed and Motorized lens options.

Design and Performance

Designed in a compact form factor. All our cameras are made of metallic body which perform exceptional in any extremes of environmental conditions.

Water and Dust Resistant

Our cameras are vandal proof, water & dust resistant. They are IP67 and IK10 protected.

Night Vision & Defog

The IR range of our Bullet camera helps to record/ videotape the scene even in the night or in dark areas. Defog feature automatically clears the fog, snow or mist from the lens and provides clear image.

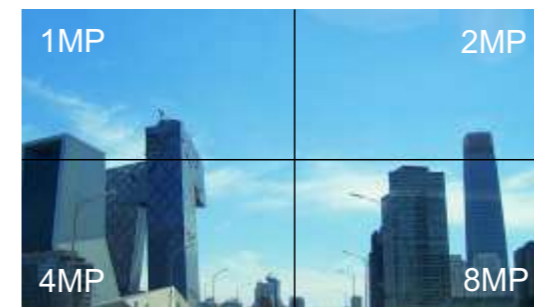

Starlight Technology

Equipped with latest high-grade STARLIGHT technology which makes our camera most preferred as this feature enables a camera to provide coloured images even in a very dim light situation and night time.

Conventional Camera

Starlight Camera

Quad Streaming

Our cameras are equipped with Quad Streaming algorithm as they allow us to watch the recorded video even on a low bandwidth without missing out on any significant detail.

Artificial Intelligence

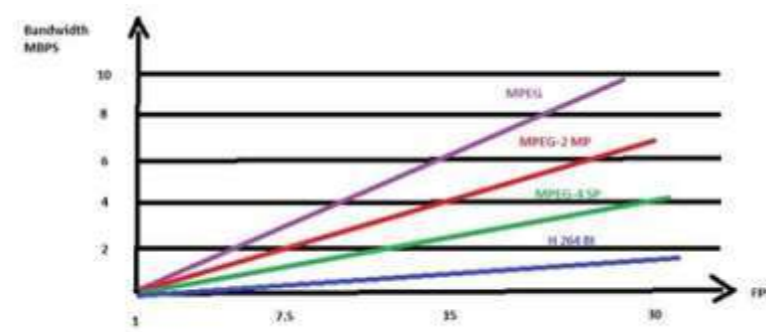

Equipped with advanced motion detection algorithm. Our camera comes with face recognition, face detection, human detection, virtual fence, perimeter intrusion, object left and removal detection, scene change, loitering, over speed etc.

Image Enhancement & Stabilization

Our range of cameras are equipped with WDR feature which enables the lens to remove over & under exposure of light and stabilizes the image automatically.

Video Recorders and Network Switches

We have a range of video recorders starting from 4 Channels to 64 channels of Network Video Recorders. PoE based Network switches are also available for inter-connecting of Cameras and NVRs.

Video Compression

Supports latest compression technology smart encode H.265+/ H.265/ H.264.

Accessories

Cables and connectors comprising CAT6 cables, Optical Fiber, Poles, PVC Conduit, Media Converters, SFP modules, brackets and housing etc.

Application Areas

Government Offices,
Hospitals

Defense establishments,
Paramilitary forces

Schools, Colleges,
Universities
