### Available Breakout Room for Individual Attention

Breakout Rooms allow teachers to split learners into multiple smaller groups facilitating students' requirements clearing their doubts. It allows students to experience personalized learning and help to encourage peer-to-peer participation.

### Comprehensive Assessments with Detailed Monitoring

Experience the well-defined assessment procedure for self-evaluation. Access to eminent attributes like online cheat-proof assessments including options for proctoring tests & safe browsing examinations. Access to several types of objectives, subjective, and many other varieties of questions, online test conduction & report generation for better analysis.

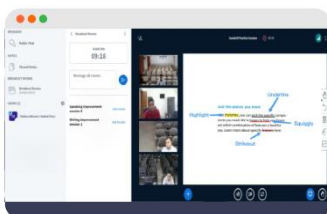

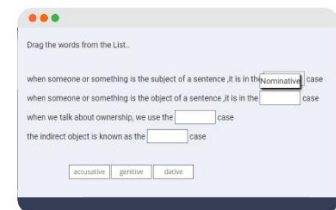

### Create Your Own Content Library

We provide opportunities for both teachers and students to construct their own content library for easy reference in the classroom. Teachers and students can prepare a list of multimedia files like presentations, documents, PDFs, and excels before commencing the classroom preventing last-minute hustle to conduct effective sessions.

### Advanced Gamification for an Engaging Session

We deliver tailor-made gamified lessons to make concepts easier to understand. Perfectly conceptualized and well-designed gamified sessions help in delivering interactive lessons engaging students without losing sight of their learning objectives.

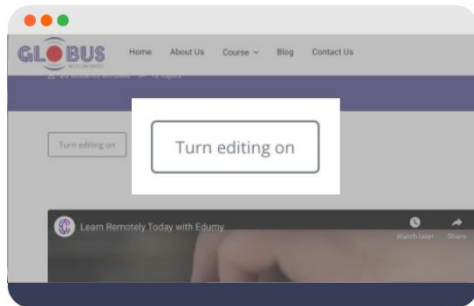

### Enhance Virtual Engagement Among Learners

Ensure active participation in learning with enriched interactivity tools like whiteboard along with available options for chatroom, hand raise. Record your live classes, share & learn by uploading documents, notes, videos & even screens. Also, videos can be optimized in the resolution of low, medium, and high allowing you to serve all levels of WIFI bandwidth.
