Empowers Learners and Teachers with Smart Learning

Employ innovative tools like geometrical shapes, multimedia files, videos, images, etc. to make classroom learning session more learner-friendly and engaging. Our Digital Teaching Solution equips a regular classroom with technology and transform it into a interactive learning space.

Creative & Collaborative Learning Environment

Learning gets better when it is enriched with interactivity and collaboration among students. Our Smart Classroom Solution creates a creative and immersive environment for learners with the help of its in-built Interactive Interface along with the preloaded Digital Content.

Gamification of Topics for Better Engagement

Subjects and topics have been gamified and explained via interactive audio-visual format like videos, simulations, animations, infographics, etc. to improve engagement levels among learners. It helps students proactively participate in the learning process.

Increased Efficiency & Better Results

Research has proven that students learn better and retain information for long when they are taught using visual aids. Globus Digital Teaching Solution not only improves classroom interaction and academic results, but also brings about holistic development of students.

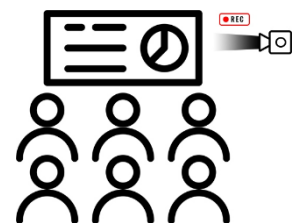

360-Degree Understanding of Subject Using Multimedia-Rich Content

Leverage the power of Digital Content and our high-definition display to enhance the learning experience for learners. By making learning more student-centric, it increases comprehension of knowledge for students.

Record Live Classes & Save

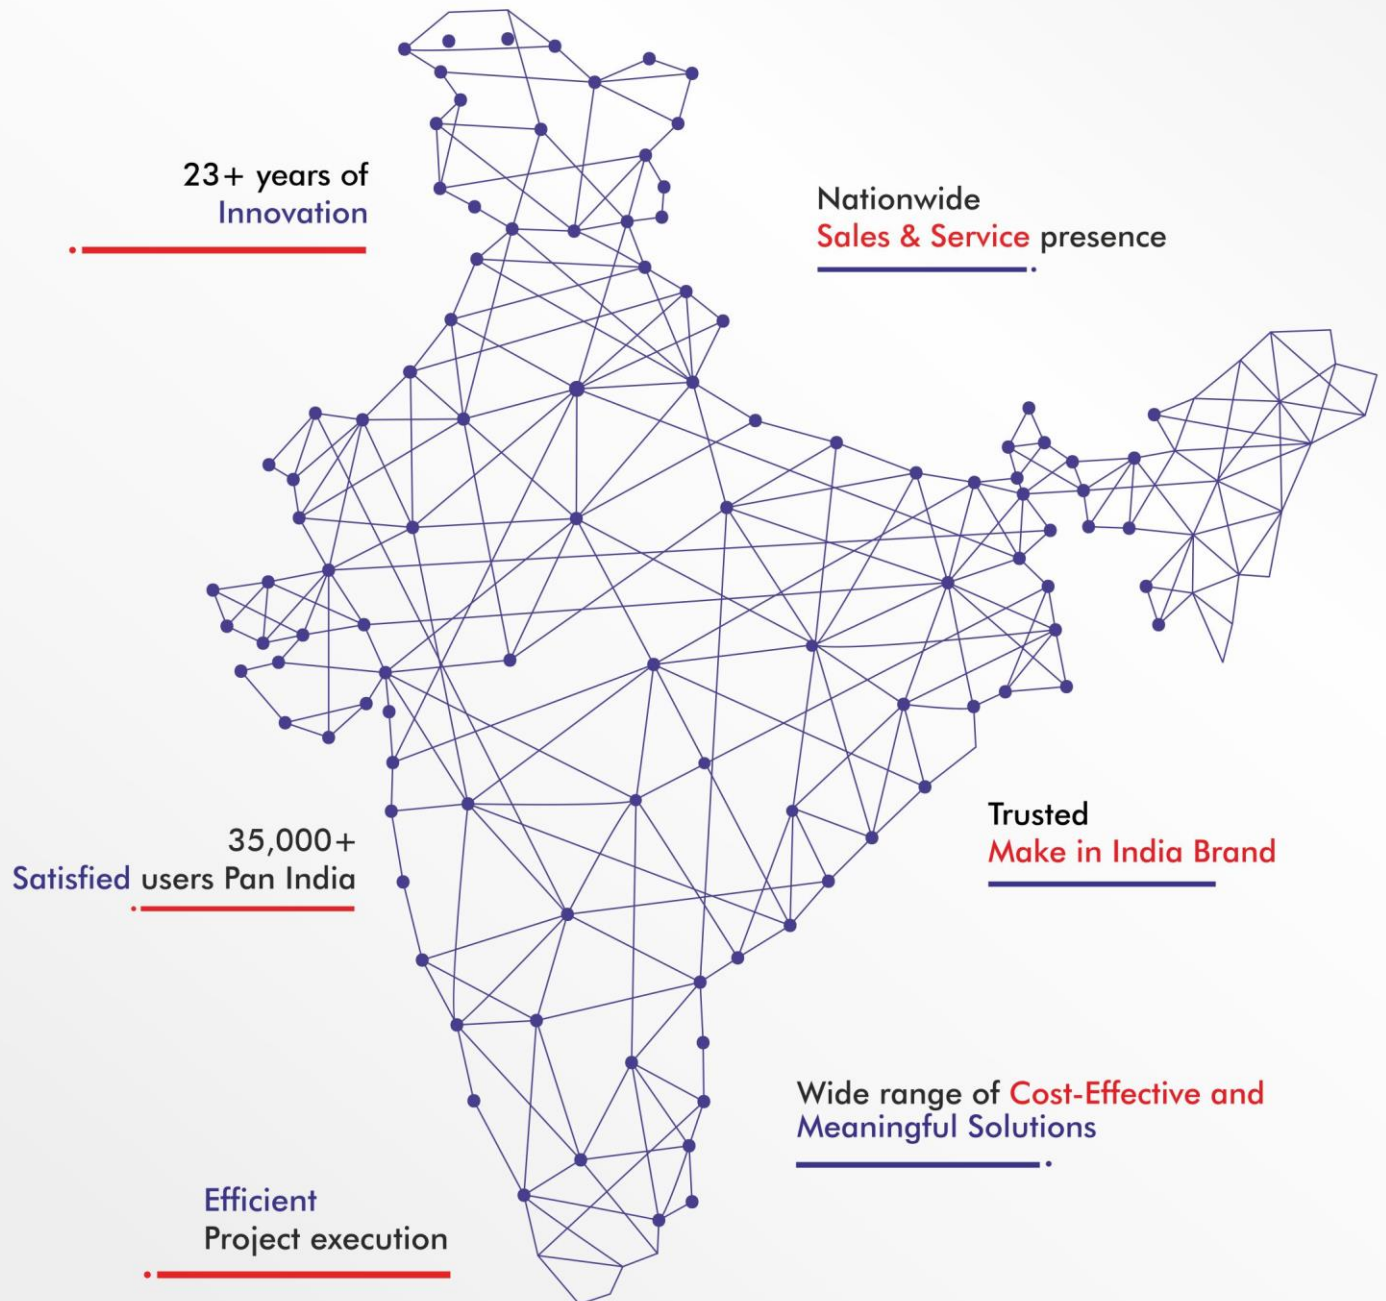

Maintaining a reliable repository of lectures and classroom sessions has never been easier. Globus Digital Teaching Solution records your live classes with one-touch and maintains an archive for post-classroom reference.
