Information Kiosk

Access information at your **finger touch** with Globus Smart Devices

Globus Information Kiosk provides an attractive and engaging platform with a 19" Touch Screen LCD to spotlight your self-service application. While the visual focus is on sophisticated presentation, the design houses a full array of Information components with highly interactive features.

Available as a smart standalone equipment, Globus Information Kiosk offers versatile enclosure options for virtually all common interactive & information devices. Integration of technology allows kiosks to perform a wide range of functions, evolving into self-service devices.

Keyboard
