Central Control Processor
High Quality Processor

MODEL: IMPACT CCD-100

IMPACT CCD-100

Technical Specifications

Central Control Processor	IMPACT CCD-100
Switches	Rack power control, multiple high voltage relay switches with 10Amp load/port for room lights control
Modular programming architecture	3 button panel to recall and control various lights pre-set and Dedicated lighting control system
Hardware Security	802.1 x authentication /JITC certified hardware for use in secured network
RAM and Flash Memory	512 MB RAM and 4GB flash memory (expandable up to 32GB and in-built memory card)
Ports	Ethernet port x 1 / RS-232 ports x 3 / IR x 8 , Serial ports / low voltage relay ports x 8 / Digital input and output ports x 8 / USB ports x 1 (upgrade)
Interface	Look at me function for low voltage output, whiteboard, show my pc, multiple panels to support contact closure with button interface panels
Overriding	External contact closures / from the software / from the front panels to override the central controller program to set the required channel to its override pre-set state
Mounting	Rack mounting
Standards	Available Natively IP / BAC net / equivalent standards
