Ordinary Projector

Globus Digital Projector

High Luminosity and Amazing Colour Accuracy

DLP technology produces bright and vivid images with amazing colour accuracy even in rooms with high ambient conditions. Enhance your presentation/ classroom or meeting sessions with its high luminosity.

Reduced Shadow Interference

With our Long Throw Projectors, interfering shadows or glare won't be a hindrance for your presentation, seminar, meeting or classroom session. It is equipped with a throw ratio as low as that allows you to project a large screen even from a very short distance.

Inbuilt Speaker

Users can enjoy playing multimedia files like videos, animations, etc. on our Long Throw Projector with an inbuilt sound output. No hassles of connecting an external audio output device. It comes with an inbuilt 5W speaker for high fidelity sound output.

Advanced Energy Saving Features

Our projectors deliver long-term, maintenance-free operation owing to its long lamp life reducing the total cost of ownership (TCO) for the users. The Economy Mode lets users extend the lamp life by optimizing image brightness accordingly.
